

King County ARES/RACES Net

Revised 30 Apr 2016. Send updates to n7uk@arrl.net

All stations, this is [your call], my name is [your name]. I will be Net Control for the King County ARES/RACES Net.

This net meets every Sunday night at 2000 hours local time on the **SeaTac Repeater Association repeater, 147.08** megahertz with a PL tone of 103.5 hertz. In case of repeater failure we'll move to the 147.00 machine, with a minus offset and a PL tone of 103.5 hertz.

The purpose of this net is to provide timely information for all of the emergency communications teams within King and the adjacent counties in the Puget Sound area. This information may consist of meeting, training or public service locations and dates.

This is a directed net. Please use your full call sign for recognition by Net Control. Please notify Net Control if you need to be excused prior to conclusion of the net. Visiting stations will be invited to check in after the teams. Stations with emergency or priority traffic may break in at any time.

Are there any **mobiles** or stations on emergency power?

- W9 HXM Dick, Redmond
- KD7 QKK Joel, Seattle
- KE7 YJV Paul, Kirkland

- _____
- _____
- _____

Do we have any stations wishing **after net** contacts?

Do we have anyone, anywhere with **anything for the net**?

Please remember that if you have access to the Internet, you will find a listing of all team leaders, timely information, news items, and links to Amateur Radio websites. The address is www.aresofkingcounty.org.

Hearing no further business, I am securing the Net at [current local time]. On behalf of the leadership and members of the King County ARES/RACES, I would like to thank **Gary W7WWI and Mike W7DME** for the use of the **SeaTac Repeater Association** repeater, and the repeater users for giving us a clear frequency. This is **[your call]** clear.
